

## Child Story, Aakriti Magar

Aakriti Magar is 5 years old girl and now living and going to School in Kathmandu. She is currently living under Reuben's care in Church hostel in Kathmandu, Nepal. Aakriti was born in 2011 Oct 3 in Samsetu, Gumtang 7, Sindhupalchok. She is reading in UKG in Paragaon School, in Lalitpur, which is 10-

minute walk from their hostel. She lives in home made by terra block in the wall, tiles floor and tin roof in the Church compound.

She is a little girl with calm and innocent face. She doesn't talk to stranger but she can become best friend once you steal her heart.

Her breakfast usually will be donut, black tea, biscuit, egg, fried rice. Her food will be

Dal, Bhat, Tarkari, Aakriti likes writing, she does not like fighting. Her desire food is Momo, and Pajama is her favorite clothing. Tiger is her lovely animal, and Mango is her sweet fruit among the fruits. She likes, Pani puri, Chatpate and Dhungri which is sold in Church compound. She has one brother whose name is Ajit/Bishal. Her biggest fear is the ground shaking and storms and dust flying in the air.

Aakriti is shy to the strangers and she loves writing and drawing of images. Her voice is very thin or small; you need to be very

attentive to hear her. At hostel, she is free from daily routine because she is the youngest of all the kids in the Church hostel.

Akriti was 3 years and 8 months when she saw the big shaking and dust like storms flying over the sky. She trembled and she was rolled as ball when 7.9M Earthquake hit Nepal. She saw her Mother dead body moved out of the fallen Church building.

That night Aakriti was terrified and she did not know what will happen next. They slept in the open space that night of the Earthquake, counting stars at night and holding her big sister's hand. She heard the screams of the people and there were dead bodies everywhere.

Their house was totally destroyed, and their only means of income, small piece of land, was overridden by rocks and pierced land, can't be use again. They became homeless, with their father and other two children, total four members in the family. Her father lost her mother and only means of piece of field in the sloppy mountain where they could grow crops.

Your support helps her pay her monthly school tuition fees including, double uniforms, books, copies and writing materials, bags, breakfast, lunch and dinner. Church provides Sunday school, dance and drama. Chameli, who is staff, cook food for all of them. Some time they are taken to retreat and Fun Park for outdoor fun.

I met Aaktiri, when I went to pray for the surviving members of the Church in Samsetu which was fallen upon the believers on the Church day and killed 23 of them inside. One of them was Aakriti's Mother.

When Aakriti grow up, she wants to become a medical Nurse.
